certificate, snacks and lunch

### Training Educator: Louise Danieli, D.Ac. RMT CDT

Louise is a Massage Therapist, and a Dr. Vodder Manual Decongestive Therapist, and holds a Doctorate of Acupuncture. Louise was an instructor with The Canadian College of Massage Therapy and Hydrotherapy for 6 years. Louise's interests in the health care field are wide and varied. She has taken many workshops and courses over the years, giving her a strong background in manual therapy, ergonomics and nutrition. Louise has been the director and instructor of the College of Acupuncture and Therapeutics since 2002.

### Objectives and course description:

Inform and instruct the participants on the basic principles and methods of neuro-proprioceptive taping. Following this training the participants will be able to:

- Conceptualize the method of neuro-proprioceptive taping
- Put in practice application techniques and cutting techniques
- Put in practice the most efficient applications for different indications
- Use the varied techniques according to different pathologies

**Recommended attendees: Massage Therapists, Vodder Therapists, Orthotherapists, Physiotherapists**
