

# TRIBUTE™

MANUFACTURED BY SOLARIS

## NO MORE STRUGGLING WITH NIGHTLY WRAPPING

Tribute custom designed nightwear garments are essential for a successful lymphedema home management program. Worn nightly, your Tribute garment will offer an easy to use, effective solution to help regulate fluid fluctuations, address tissue fibrosis, and assist a weakened lymphatic system.

Solaris' attention to detail provides you with a therapeutic garment that is stress free, comfortable to wear, easy to care for, and backed with a one year warranty.

**1** Foam channels apply directional or bi-directional gradient compression to move fluids to collateral pathways, just like MLD (manual lymph drainage).

**2** Foam chips nestle into tissue creating pressure differential and localized tissue stretch to stimulate the initial lymphatics and resolve fibrosis (indurate tissue).

**3** Tribute garments allow you to sleep in your favorite position while obtaining therapeutic results.

**4** Tribute garments are custom made for any and all areas of the body.

*"Tribute garments are effective, comfortable, and easy to use for my lymphedema patients. The Solaris customer service is outstanding."*

**Nancy Hutchison, MD, CLT**  
Minnesota

*"My Tribute has made a dramatic change in my life and living with lymphedema! I thank you so much for creating your great products."*

**Amy**  
South Carolina

*"I believe Tribute garments should be part of the standard protocol for patients with lymphedema; when worn nightly, patients receive the beneficial results of complex bandaging without the stress and frustration. The quality of my own life has been improved using the Tribute products; they are quick, easy, and effective."*
